# Chapter 1

## Airspace and Airport

### Operations ..... 1

Graphic overview of airspace .....	2
Class A & B Airspace .....	3
Class C & airport beacons .....	4
Class D .....	5
Class E .....	6
VFR in Class E .....	6
Surface based Class E .....	6
Class G .....	7
Class G control towers .....	7
Transition area .....	8
TRSA .....	8
Airport Advisory Area .....	8
Void time .....	8
<b>VFR in all Classes &amp; Special VFR .....</b>	<b>9</b>
Prohibited; Restricted; MOAs; Warning areas; Alert areas, etc. ....	10
Class F airspace .....	10
Aerobatic flight .....	11
Normal; Commuter; Utility & Acrobatic category Aircraft .....	11
ADIZ; DEWIZ; mountainous areas .....	12
Intercept procedures .....	13
Flap setting in Class G airspace .....	14
Land And Hold Short Operations (LAHSO) .....	14
<b>Turns at airports without an operating control tower .....</b>	<b>15</b>
<b>Traffic pattern entry .....</b>	<b>16, 17</b>
<b>Traffic pattern altitude &amp; glide slope .....</b>	<b>18, 19</b>
<b>Runway markings .....</b>	<b>20, 21</b>
Airport signs, markings .....	22
Runway weight bearing capacity .....	22
Holding position markings: ILS critical area .....	23
<b>Runway lights .....</b>	<b>24, 25</b>
Airport elevation & reference point .....	26
Low altitude alert .....	26
<b>Braking action / runway friction reports..</b>	<b>26</b>
Exiting the runway after landing .....	26
Formation flight .....	27

---

---

# Chapter 2

## Flight Rules & Approach

### Procedures..... 29

<b>Is the AIRPLANE Legal?.....</b>	<b>30</b>
<b>Is the PILOT Legal?.....</b>	<b>31</b>
Equipment suffixes; flight plan information .....	32

RNAV; RNP .....	33
Preflight action; flight plan .....	34
Preferred routes .....	34
Seat belts & shoulder harness .....	34
<b>Do you need an ALTERNATE? .....</b>	<b>35</b>
<b>Alternate airport weather .....</b>	<b>35</b>
Fuel supply .....	36, 37
Void time; IFR takeoff limitations; taxiing .....	38
<b>Takeoff briefing &amp; TOLD card .....</b>	<b>39</b>
Wake turbulence .....	40
Climb gradient .....	41
Pilotage .....	41
Dead reckoning .....	41
RCO; RTR; GCO .....	42
<b>Departure Procedures (DP) .....</b>	<b>43</b>
VFR-On-Top; VFR-Over-The-Top .....	44
Minimum fuel advisory .....	44
VFR flight following .....	44
Non-radar position reporting .....	45
Additional reports; pilot's discretion .....	45
VOR .....	46
Class I & Class II navigation .....	46
Federal (Victor) airways .....	47
Colored airways .....	47
Jet routes .....	47
Crossing restrictions .....	47
<b>Standard Terminal Arrival (STAR) .....</b>	<b>48</b>
Timed approaches .....	48
Cruise clearance .....	49
Cruise climb .....	49
Radar service terminated .....	49
NACO (NOS) approach plate revision date .....	49
D-ATIS .....	49
<b>Approach Briefing .....</b>	<b>50</b>
TOLD card — approach side .....	51
Cleared for approach .....	52
ADF/GPS .....	52
Minimum Vectoring Altitude — MVA .....	52
RADAR .....	53
<b>Procedure turn .....</b>	<b>54</b>
<b>DME arc .....</b>	<b>54</b>
Approach categories .....	55
Full scale deflection .....	55
Pilot controlled runway lights .....	55
<b>Final Approach Fix .....</b>	<b>56</b>
<b>GlideSlope Intercept Altitude (GSIA) .....</b>	<b>56</b>
<b>False GlideSlopes .....</b>	<b>56</b>
Final Approach Point .....	57
Final Approach Segment .....	57
ILS critical area .....	57
CAT I, II, III ILS minimums .....	57
Precision approach .....	58
Nonprecision approach .....	58
Precision-like approach .....	58
ILS .....	59
Marker beacon .....	59
Localizer antenna .....	59

Glideslope antenna .....	59
Traffic pattern altitude & glideslope.....	60
Localizer approach.....	61
Localizer backcourse approach .....	61
ASR approach.....	61
PAR approach.....	61
DME arc procedures .....	61
<b>RNAV / RNAV approaches.....</b>	<b>62</b>
<b>Contact approach .....</b>	<b>62</b>
<b>Option approach .....</b>	<b>62</b>
<b>Low approach .....</b>	<b>62</b>
NDB.....	63
<b>Nonprecision—NDB/VOR</b>	
<b>approach &amp; holding .....</b>	<b>64, 65</b>
<b>Holding Pattern Speeds.....</b>	<b>65</b>
LDA .....	66
SDF .....	66
Straight-in approach.....	67
Circling approach .....	67
Terminal arrival area—GPS approaches .....	68, 69
Landing under IFR .....	70
Missed approach.....	70
Standard rate turns .....	71
No-gyro approach .....	71
Missed approach prior to MAP.....	71
<b>RVR .....</b>	<b>72</b>
<b>Braking Action .....</b>	<b>72</b>
Exiting the runway after landing.....	72
<b>Approach lighting .....</b>	<b>73-74</b>
VASI .....	75
PAPI .....	75
<b>Visual approach.....</b>	<b>76</b>
Low altitude alert.....	76
<b>Visual Descent Point (VDP) .....</b>	<b>77</b>
Planned Descent Point (PDP).....	77
Vertical Descent Angle (VDA).....	77
Charted Visual Flight Procedure (CVFP).....	77
Transponder Landing System (TLS).....	78
ILS PRM approaches.....	79
Simultaneous converging instrument approaches...	80
Side-step maneuver .....	80
Canceling IFR .....	81
Exiting the runway after landing.....	81
Communications failure.....	82
Communications with control towers in Class G.....	83
<b>Instruments &amp; equipment.....</b>	<b>84</b>
Safety belts .....	84
<b>Clock.....</b>	<b>85</b>
Aircraft lights .....	85
Interference with crewmembers.....	86
Dropping objects .....	86
Right-of-way rules .....	86
Overhead approach maneuver .....	87
Same runway separation .....	88

## Chapter 3

### Navigation & Radios ..... 89

<b>Compass stuff.....</b>	<b>90</b>
<b>VOR.....</b>	<b>91</b>
VOR check .....	91
VOT .....	91
Class I & Class II navigation.....	92
<b>DME.....</b>	<b>93</b>
Portable electronic devices.....	93
<b>GPS .....</b>	<b>94, 95</b>
Wide Area Augmentation System (WAAS).....	96
Local Area Augmentation System (LAAS).....	96
<b>ANTENNAS.....</b>	<b>97-99</b>
Transponder codes.....	100
Frequencies.....	100
<b>NDB .....</b>	<b>101</b>
UNICOM.....	102
Automated UNICOM.....	102
EFAS / Flight Watch / FSS — frequencies.....	102
ADS-B — Automated Dependent Surveillance- Broadcast .....	103
<b>High Frequency (HF) Radio.....</b>	<b>104</b>
Telecommunication terms — Datalinks.....	105

## Chapter 4

### Speed, Altitude & Jet Operations..... 107

<b>Speed limits.....</b>	<b>108-110</b>
Holding pattern speeds.....	109
Aircraft approach categories.....	110
Circling radii.....	110
Speed limits—cross-reference .....	110
Crossing restrictions .....	111
How to meet a crossing restriction .....	111
Hydroplane speed .....	111
<b>V-speeds .....</b>	<b>112, 113</b>
Airspeed errors, types & colors .....	114
<b>Speed of sound &amp; Mach.....</b>	<b>115</b>
Flight regimes .....	116
Troposphere; Tropopause; Stratosphere .....	116
Temp lapse rate.....	116
<b>ISA — International Standard Atmosphere.....</b>	<b>117</b>
Kollsman window.....	118
Altitude types (Pressure, Density, Indicated, etc.)	118
Altimeter setting.....	119
Altitude temperature correction chart .....	119
Pressure/temperature & altimetry.....	120, 121
<b>Density altitude .....</b>	<b>122-125</b>
Decompression sickness after scuba diving .....	123

LOW & HIGH altimeter setting restrictions .....	126
<b>Transponder—altitude reporting—</b>	
<b>Mode C.....</b>	<b>127</b>
IFR altitudes—minimum altitudes for IFR.....	128
<b>G</b> lide <b>S</b> lope <b>I</b> ntercept <b>A</b> ltitude ( <b>GSIA</b> ) .....	128
Min/max & mandatory altitudes .....	128
<b>M</b> inimum <b>S</b> afe <b>A</b> ltitudes.....	129
<b>M</b> inimum <b>V</b> ectoring <b>A</b> ltitude ( <b>MVA</b> ) .....	129
<b>M</b> inimum <b>S</b> afe/ <b>S</b> ector <b>A</b> ltitude ( <b>MSA</b> ) .....	129
Changing altitudes .....	129
Pilot's discretion.....	129
Traffic pattern altitude—Class B, C, or D .....	130
GlideSlope in Class B, C, or D airspace.....	130
Traffic pattern altitude @ uncontrolled airports .....	131
<b>Cruising altitudes .....</b>	<b>132</b>
<b>R</b> educed <b>V</b> ertical <b>S</b> eparation <b>M</b> inimums ( <b>RVSM</b> ) .....	133
Altimeter setting and the flight levels .....	134
Mountain flying—the “venturi effect” .....	134
Altimeter pitot/static check.....	135
Radar altimeter .....	135
<b>Altitude cross-reference .....</b>	<b>136-138</b>
Oxygen altitudes .....	139
<b>Altimetry around the world</b>	
<b>(QNH, QNE, QFE) .....</b>	<b>140, 141</b>
Convert inches of mercury to millibars .....	141
Rapid decompression .....	142
Altitude chambers.....	142
Pressurized aircraft basic components .....	142
<b>Oxygen systems.....</b>	<b>143</b>
<b>Jet &amp; turbine operations—101 .....</b>	<b>144</b>
Jet fuel pounds vs. avgas gallons .....	145
<b>Jet / turbine engine—101 .....</b>	<b>146, 147</b>
Jet engine starting .....	148
Jet / turbine engine terminology .....	149
Electrical terminology .....	150
Fuel terminology .....	151
Hydraulic terminology .....	151
Air conditioning terminology .....	151
Flight control terminology .....	151
Avionics terminology.....	152
TCAS .....	152
<b>Pressurization .....</b>	<b>153</b>
<b>Jet takeoff.....</b>	<b>154</b>
Balanced field length .....	155
Critical field length .....	155
Stopway .....	155
Clearway.....	155
First segment definition variations .....	155
Screen height.....	155
Critical engine .....	155
Takeoff distance .....	156
<b>Accelerate-STOP distance .....</b>	<b>156</b>
<b>Accelerate-GO distance .....</b>	<b>156</b>
Takeoff run.....	157
Takeoff path.....	158
Net takeoff flight path.....	158

Additional miscellaneous terms .....	158
Driftdown .....	159
Obstacle-clearance criteria .....	159
Transport category turbine LANDING criteria.....	159
<b>TOLD Card .....</b>	<b>160, 161</b>
Windmill start / airstart .....	162
Altitude alerting system—turbojets .....	162
Fire detection and protection .....	162
Winglets .....	162
Windshield heat .....	163
Tires .....	163
Swept wing.....	163
Dutch roll.....	163
Yaw damper .....	163
<b>RAT — TAT — SAT — OAT.....</b>	<b>164</b>
Noise standards .....	165

---

---

## Chapter 5

### **Pilot Certificates, Log Books, Medical, Drugs & Alcohol .. 167**

Pilot certificate — category / class / type .....	168
Aircraft — category / class .....	168
Flight review (BFR) .....	169
Basic “CURRENCY” requirements .....	169
<b>PIC instrument currency (6 month) .....</b>	<b>170</b>
Safety pilot .....	171
Recent flight experience PIC (3 bounces) .....	172, 173
<b>Airplane Flight Manual / Limitations /</b>	
<b>Markings and Placards.....</b>	<b>174</b>
<b>Documents on board aircraft.....</b>	<b>175</b>
Certificates required in pilot's possession.....	175
<b>Logbooks / logging time.....</b>	<b>176, 177</b>
Logging SIC—Navajo, King Air, Citation .....	178, 179
Change of address.....	180
Replacement of airman certificates .....	180
Falsification of logbooks or records .....	181
<b>Lost or stolen logbook .....</b>	<b>181</b>
<b>SIC qualifications.....</b>	<b>182</b>
<b>Student pilot.....</b>	<b>183</b>
Recreational pilot .....	184
Private pilot .....	185
Instrument rating; instrument currency .....	186
Commercial pilot .....	187
<b>Airline Transport Pilot.....</b>	<b>188, 189</b>
Flight instructor .....	190, 191
Flight examiner .....	192
Status of an examiner .....	192
<b>Cross-country time.....</b>	<b>193</b>
<b>Temporary certificate .....</b>	<b>193</b>
Type rating .....	194
Complex endorsement.....	194

High performance endorsement .....	194
<b>High altitude endorsement.....</b>	<b>195</b>
<b>Tailwheel endorsement.....</b>	<b>195</b>
Maintaining currency for a type rating.....	196
<b>MEDICAL certificate .....</b>	<b>197</b>
Operations requiring a medical certificate.....	197
Operations NOT requiring a medical certificate.....	197
Prohibitions on operations during medical deficiency.....	198
<b>Duration of a medical certificate .....</b>	<b>199</b>
Vision requirements .....	199
<b>SODA.....</b>	<b>200</b>
Lasik eye surgery .....	200
Contact lenses .....	200
Eye (required vision) .....	200
Ear, Nose, Throat, and Equilibrium.....	201
Mental.....	201
Neurologic .....	201
Cardiovascular .....	201
Diabetes mellitus—general medical condition .....	201
Kidney stones.....	201
Hypertension.....	201
Special issuance—discretionary issuance.....	201
<b>Drugs or alcohol .....</b>	<b>202, 203</b>
Motor vehicle action .....	202
<b>Speeding tickets.....</b>	<b>203</b>
Over-The-Counter medications.....	204

---

---

## Chapter 6

### **Weather & NOTAMS ..... 205**

Windshear, microburst .....	206
Thunderstorm avoidance / penetration .....	207
Extreme turbulence .....	207
<b>ICE .....</b>	<b>208, 209</b>
Carburetor icing.....	210
Frost .....	211
Rime ice .....	211
Clear ice .....	211
Freezing rain .....	211
Ice pellets .....	211
Trace, light, moderate, severe icing.....	211
<b>Ground icing conditions .....</b>	<b>212</b>
<b>(FPD) de-ice/anti-ice fluids .....</b>	<b>212</b>
<b>Holdover times .....</b>	<b>212</b>
<b>Braking action .....</b>	<b>213</b>
Contaminated runways .....	213
“Iced-over” sparkplug electrodes .....	213
<b>Jet stream .....</b>	<b>214</b>
Clear Air Turbulence .....	215
Wind chill factors .....	216
<b>AWOS vs. ASOS .....</b>	<b>217</b>
<b>METAR vs. TAF .....</b>	<b>218</b>

Ceiling.....	218
Virga .....	218
Limited Aviation Weather Reporting Station (LAWRS) .....	218
METAR identifiers.....	218
<b>METAR/TAF explanations .....</b>	<b>219</b>
Wind direction — true north vs. magnetic .....	220
<b>METAR/TAF &amp; flight plan WALLET SIZED     CHEAT-SHEETS.....</b>	<b>221</b>
Color codes .....	221
EFAS / Flight Watch / FSS — Frequencies.....	223
Standard briefing .....	223
Abbreviated briefing.....	223
Outlook briefing .....	223
Inflight briefing .....	223
Turbulence reporting criteria .....	223
AIRMET (WA).....	224
SIGMET (WS).....	224
Convective SIGMET (WST).....	224
Severe weather forecast alerts (AWW) .....	224
Center Weather Advisories (CWA).....	224
Telephone Information Briefing Service (TIBS).....	224
Pilot Automatic Telephone Answering Service (PATWAS).....	224
Transcribed WEather Broadcast (TWEB) .....	224
Hazardous Inflight Weather Advisory Service (HIWAS) .....	224
<b>Pilot REPortS (PIREP)(UA)(UUA).....</b>	<b>225</b>
Radar weather reports (SD) .....	225
Aviation area forecast (FA).....	225
Winds and temperatures aloft forecast (FD) .....	225
Convective outlook (AC).....	225
Stability chart .....	225
Radar summary chart.....	225
Severe weather outlook chart.....	225
<b>NOTAMS .....</b>	<b>226, 227</b>
Fog.....	228
<b>FSS Toll-Free Nationwide Telephone     Numbers (cell phone) .....</b>	<b>229</b>

---

---

## Chapter 7

### **An Overview of Commercial Operations.....231**

<b>Definitions — Commercial .....</b>	<b>232</b>
<b>Common/Noncommon or Private.....</b>	<b>232</b>
<b>Commuter .....</b>	<b>233</b>
<b>On-Demand .....</b>	<b>233</b>
<b>Domestic.....</b>	<b>234</b>
<b>Flag .....</b>	<b>234</b>
<b>Supplemental.....</b>	<b>234</b>
<b>Scheduled .....</b>	<b>235</b>

Domestic, Flag, Supplemental, Part 121 .....	235
Part 125 .....	235
Part 135 or Part 121 does not apply to .....	236
Business names .....	237
Common carriage .....	237
Noncommon carriage .....	237
Aircraft requirements .....	237
Operational control .....	237
<b>Certificate-Holding District Office (CHDO)</b> .....	237
Direct air carrier .....	237
Part 91 vs. Part 121 vs. Part 135 .....	238, 239
<b>PIC qualifications</b> .....	<b>240</b>
<b>SIC qualifications</b> .....	<b>241</b>
<b>SIC required</b> .....	<b>241</b>
Training, testing & checking—a quick synopsis ....	242
Passengers during cargo only operations .....	243
<b>Load manifest (W&amp;B)</b> .....	<b>243</b>
Load manifest, W&B; recordkeeping .....	244
Justifiable aircraft equipment .....	244
Maximum payload capacity .....	244
Standard average passenger weights .....	244
<b>Cargo floor limits</b> .....	<b>244</b>
Weight / Balance & Center of Gravity .....	245
Pilot recordkeeping—W&B—load manifest .....	246
COMAT .....	246
Effects of forward / aft CG .....	247
Reporting mechanical irregularities .....	247
Airworthiness check .....	247
Cargo compartment classification .....	248
<b>Sterile cockpit</b> .....	<b>249</b>
Manipulation of controls .....	249
Admission to flight deck .....	249
PIC/SIC designation required .....	249
<b>Fuel supply</b> .....	<b>250, 251</b>
<b>Destination &amp; alternate</b>	
<b>airport weather</b> .....	<b>252, 253</b>
<b>Do you need an alternate?</b> .....	<b>254</b>
<b>Alternate airport weather minimums</b> ....	<b>255</b>
People Express Exemption (3585) .....	256, 257
<b>Takeoff minimums</b> .....	<b>258, 259</b>
<b>Approach weather required</b> .....	<b>260</b>
Descent below DH or MDA .....	260
Approach weather NOT required for Part 91 .....	260
Landing under IFR .....	261
RVR .....	261
Approach lighting .....	262
<b>High minimums captain</b> .....	<b>263</b>
Special Exemption 5549 .....	263
<b>Arrival at airports with</b>	
<b>no weather reporting</b> .....	<b>264</b>
<b>Departing airports with</b>	
<b>no weather reporting</b> .....	<b>265</b>
<b>Flight Time &amp; Duty</b> .....	<b>266-275</b>
Flight locating procedures .....	276
Regular airport .....	276

Provisional airports .....	276
Runway lighting .....	276
<b>International flights between</b>	
<b>Mexico or Canada and the U.S.</b> .....	<b>277</b>
Small & large Aircraft .....	278
Type rating required .....	278
<b>Accelerate-STOP Distance</b> .....	<b>278</b>
<b>Accelerate-GO Distance</b> .....	<b>278</b>
<b>Landing limitations—60%, 70%, 80%</b> .....	<b>279</b>
<b>Effective runway length</b> .....	<b>279</b>
Subpart F — large and turbine-powered	
multiengine airplanes .....	280
Autopilot — minimum altitudes for use .....	281
Alcoholic beverages .....	282
Stowage of food, beverage .....	282
Exit seating .....	282
Smoking prohibitions .....	283
<b>Subpart K of Part 91</b> .....	<b>284, 285</b>
<b>Effect of Subpart K on Part 135</b> .....	<b>286</b>

---

---

## Chapter 8

### **More Commercial Stuff ..... 287**

<b>Operations Specifications</b> .....	<b>288</b>
<b>Operations Manual (GOM)</b> .....	<b>289, 290</b>
Management personnel qualifications .....	291
<b>Ramp check</b> .....	<b>292</b>
<b>Checklists</b> .....	<b>293</b>
Charts .....	293
Performance data .....	293
Passenger occupancy of pilot seat .....	293
Briefing of passengers before takeoff .....	293
Proving runs .....	294
<b>Cockpit Voice Recorder (CVR)</b> .....	<b>294</b>
<b>Flight Data Recorder (FDR)</b> .....	<b>294</b>
<b>Ground Proximity Warning Systems (GPWS)</b> .....	<b>294</b>
Initial, Transition & Upgrade GROUND training .....	295
Recurrent training .....	295
Group I & Group II airplanes .....	296
Training TYPE DEFINITIONS (Initial, Transition, Upgrade, Differences, Recurrent, etc.) .....	296
<b>Grace month</b> .....	<b>296</b>
EMERGENCY training .....	297
Fire extinguishers .....	297
HAZMAT .....	298, 299
Company flight instructors .....	300
Authorized instructor means .....	300
Check airman .....	301
<b>CHECKRIDES</b> .....	<b>302-307</b>
Initial <b>Operating Experience (IOE)</b> .....	308
Flight attendants .....	308
Weapons .....	308
Aircraft tests & inspections .....	309

<b>100 hour inspection</b> .....	<b>309</b>
Progressive inspection program .....	309
Continuous Airworthiness Inspection Program .....	309
Approved Aircraft Inspection Program (AAIP).....	309
<b>Annual inspection</b> .....	<b>309</b>
VOR check .....	309
Service difficulty reports .....	310, 311
Time in service .....	311
Mechanical interruption summary report.....	312
Approved Aircraft Inspection Program (AAIP).....	312
Operation after maintenance .....	312
Maintenance required (owner, operator).....	312
Operable condition .....	312
Mechanical irregularity .....	312
Instruments & equipment required .....	313
Safety belts .....	313
Radio & nav equipment—extended overwater .....	314
Emergency equipment—extended overwater.....	314
Performance requirements—over water .....	314
Extended overwater weather .....	315
Airborne weather radar .....	315
TCAS.....	315
<b>Flashlight</b> .....	<b>315</b>
Aircraft airworthiness.....	316
Reporting mechanical irregularities.....	316
Flight crewmembers at stations .....	316
Seat belts & shoulder harness .....	316
<b>Airplane Flight Manual (AFM)</b> .....	<b>317</b>
<b>Pilot Operating Handbook (POH)</b> .....	<b>317</b>
<b>Limitations / Markings / Placards</b> .....	<b>317</b>
Minimum Equipment List (MEL) .....	318-321
Configuration Deviation List (CDL) .....	320
Inoperative means.....	320
Ferry permit (special flight permit) .....	322, 323
<b>Pilot record sharing (PRIA)</b> .....	<b>324</b>
Access investigation check (airport badge) .....	325
Closing & locking of flightcrew door.....	325
Aircraft dispatcher .....	326
Dispatch release / flight release .....	326
Age 60 and Part 121 .....	327

---

---

## Chapter 9

### **Emergencies & Legal ..... 329**

Compliance with ATC clearances .....	330
Deviating from a rule due to an emergency .....	330
Confirm it!.....	330
Do not mumble.....	330
<b>EMERGENCY—allowed to</b>	
<b>IMMEDIATELY deviate ....</b>	<b>330</b>
<b>EMERGENCY</b> .....	<b>331</b>
Responsibility and authority of the PIC .....	331
<b>Engine failure</b> .....	<b>332, 333</b>

Critical engine .....	333
Accelerate-STOP / Accelerate-GO.....	333
Area of decision.....	333
Single-engine service ceiling .....	333
Single-engine absolute ceiling.....	333
Driftdown.....	333
<b>VMC</b> .....	<b>334</b>
Left engine is critical because .....	335
<b>How to CRASH an airplane equipped</b>	
<b>with a perfectly good spare engine... 336</b>	
Common multiengine accident scenarios.....	336
Emergency equipment.....	337
Fire extinguisher .....	337
First aid kits .....	337
Megaphone.....	337
<b>Minimum fuel advisory</b> .....	<b>337</b>
Immediately .....	337
Emergency .....	337
Emergency frequencies.....	337
Priority.....	337
Mayday .....	337
Pan, pan, pan .....	337
Emergency Locator Transmitter (ELT).....	338
ELT changes in the works .....	339
<b>NASA reports</b> .....	<b>340</b>
Aviation safety reporting program .....	340
Careless or reckless operation .....	340
Enforcement action.....	342, 343
<b>Accident or incident</b> .....	<b>344</b>
Major or minor damage .....	344
Notification of accidents.....	345
Notification of incidents & overdue aircraft .....	345
<b>NTSB phone numbers</b> .....	<b>345</b>
Preservation of Wreckage; reports.....	345
Aeronautical Information Manual—	
only an advisory? .....	346
<b>Copies of ATC Tower/Center—</b>	
<b>audio/radar track tapes .... 346</b>	
FAA “Hot Line” .....	346
AOPA “Hot Line” .....	346

---

---

## Chapter 10

### **Miscellaneous, Definitions, Aerodynamics & Trivia ..... 293**

<b>Piper — Numbers &amp; Names</b> .....	<b>348</b>
<b>Beechcraft — Numbers &amp; Names</b> .....	<b>349</b>
Hypoxia.....	350
Hyperventilation.....	350
Carbon Monoxide .....	350
Ear block.....	350
Air ambulance flights — “Life Guard” .....	350

<b>Aerodynamics.....</b>	<b>351-353</b>
Forces acting on an aircraft in flight .....	351
Angle of attack .....	351
Angle of incidence .....	351
Camber .....	351
Chord or chord line .....	351
Relative wind .....	351
Wing planform .....	351
Aspect ratio.....	351
Lift-Drage ratio — L/D.....	351
Gravity .....	352
Center of Gravity .....	352
Bernoulli.....	352
Center of lift .....	352
Center of pressure.....	352
Drag .....	352
Induced drag.....	352
Effect of air density on lift and drag .....	352
Effect of altitude, temperature & humidity .....	352
Parasite drag .....	353
Form drag .....	353
Skin friction drag .....	353
Interference drag .....	353
Angle of attack and lift .....	353
Critical angle of attack .....	353
Load factor.....	353
<b>Flaps/Slots/Slats &amp;</b>	
<b>Boundary layer control.....</b>	<b>354, 355</b>
Plain flap .....	355
Split flap .....	355
Slotted flap.....	355
Fowler flap .....	355
Aerodynamic twisting caused by flap .....	355
Fixed slot .....	355
Automatic slot .....	355
Boundary layer control.....	355
Laminar flow .....	356
Boundary layer .....	356
Reynolds number .....	356
<b>Adverse vs. Proverse Yaw .....</b>	<b>357</b>
Dutch roll.....	357
Yaw damper.....	357
Trim tabs.....	357
<b>Service ceiling.....</b>	<b>358</b>
All engine service ceiling .....	358
Single-engine service ceiling .....	358
Certified ceiling .....	358
Maximum certified ceiling .....	358
Maximum certified altitude.....	358
Absolute ceiling .....	358
Single-engine absolute ceiling.....	358
Driftdown.....	358
Fastest and highest flying airplane.....	358
Contrails.....	358
<b>Pilot In Command .....</b>	<b>359</b>
<b>Pilot In Command seating position.....</b>	<b>359</b>
<b>Active pilots in the United States.....</b>	<b>359</b>

# Chapter 11

## **Reference, Rules of Thumb, Conversions ..... 377**

### **ICAO airport identifier country prefix .... 378**

Aircraft country registration number codes ..... 378

Airport identifier logic..... 379

A few interesting identifiers ..... 379

### **ZULU time..... 380**

Pitot-static system malfunctions..... 381

Effects of forward / aft CG..... 381

Fuel & fluid colors..... 381

Draining fuel sumps ..... 381

Crosswinds..... 381

Cutouts (placards)..... 382

### **°C to °F (placard)..... 382**

### **Reciprocals (placard) ..... 382**

### **TAKEOFF mnemonic..... 382**

### **Flight plan (wallet-sized) ..... 382**

Measurements (1/64-1/32-3/64-1/16, etc.) ..... 382

Spin recovery—PARE..... 382

### **SHUTDOWN mnemonic..... 382**

Quickie conversions ..... 383

**POUNDS** to **GALLONS** ..... 383

**POUNDS** of Jet A to **LITERS**..... 383

**CELSIUS** to **FAHRENHEIT** ..... 383

Liquid measures (ounce, cup, pint, quart, etc.) ..... 383

Radio call..... 383

Acre ..... 383

Reciprocals—22 Rule ..... 383

### **Fuel weight ..... 384**

### **Conversions, Comparisons, Formulas & Weights..... 385**

### **Formulas & Rules of Thumb ..... 386-389**

Conversion Tables ..... 390-394

---

---

## **INDEX..... 395**
